Step 1.
Place the table top upside down on a clean surface to begin the assembly.
Locate one of the leg assemblies and place in position on the table top.
Make sure the cross support is facing in as shown above.

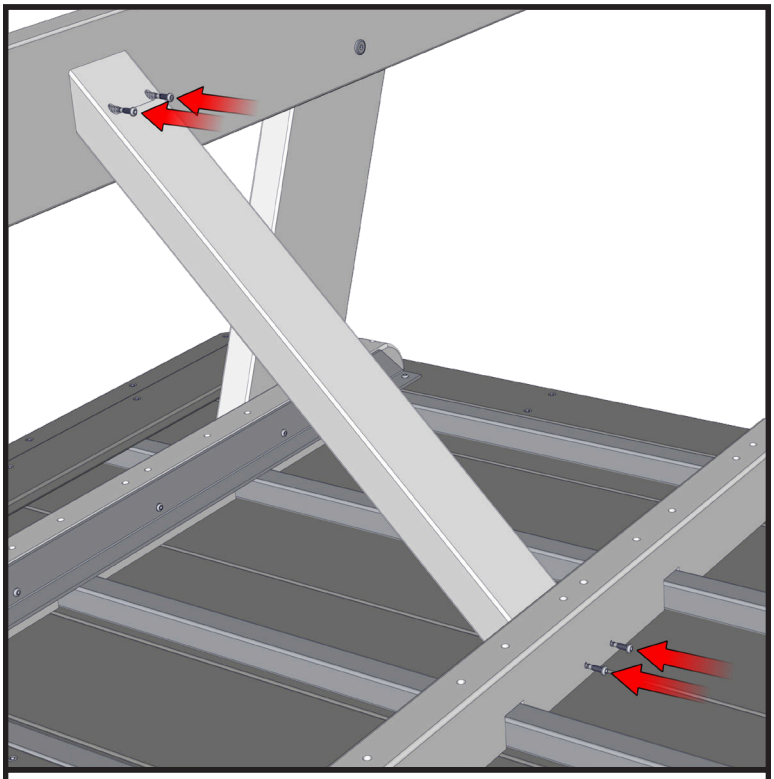

Step 2.
Use 3 ½" bolts through the pre-drilled holes to hold the legs in place.

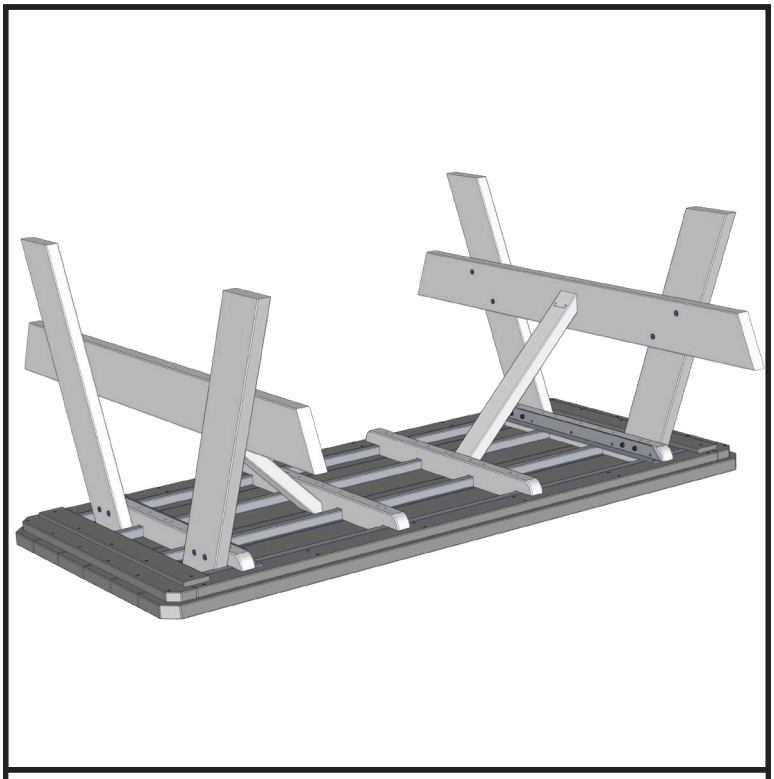

Step 3.
Tighten the bolts with flange nuts on the side with the steel support.

Step 4.
Make sure the legs are square to the table top then place one of the braces in position.
The brace has one end cut to an angle and one end cut to a point, the end with the point goes against the table top.

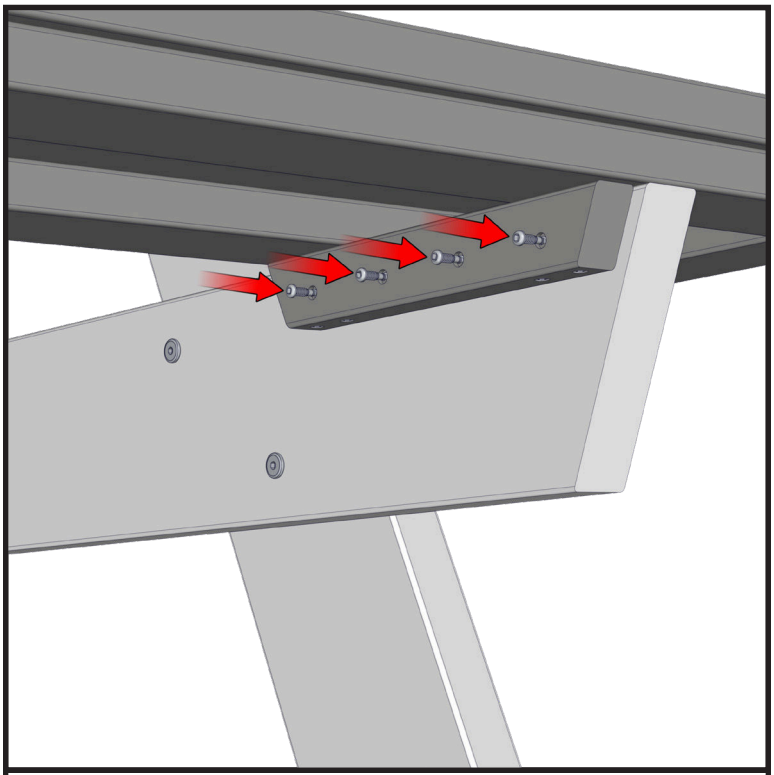

Step 5.
Fasten the brace using four 2 ½" screws.

Step 6.
Repeat the previous steps to install the legs on the other side.

Step 7.
Set the table upright and place the seat assemblies in position.

Step 8.
Fasten the seats to the cross support using 2" screws.
