Care & Maintenance

POLY MATERIAL

General Cleaning

Scrub boards with soap and water solution using a soft sponge or plastic bristled brush.
You can use a soft bristled toothbrush to clean spaces that are hard to reach.
To remove surface dust, hose furniture down with cold, clear water.

Deep Cleaning

A pressure washer can be used on the lightest setting to deep clean your furniture.
It is not recommended to use more than 1,500 psi. Keep the tip of the pressure washer at least 10-12 inches from the furniture so it doesn't damage the material.
